

## CPD Leader Update – Term 5 2016

### Subject Leader Topics – Summer Term

**English:** The summer English Subject Leader meeting will provide any relevant updates from the DfE and Local Authority. In addition to this, there will be a chance for delegates to (voluntarily) contribute a brief presentation about a project or example of good practice from their own school. (Any delegate interested in doing so, please email Penelope.bill@kent.gov.uk in advance of the meeting, so that timing can be planned.) We will also share books and texts which suit the different age groups in the Primary school. Delegates are asked to bring a text for each year group, with a sticky note attached to suggest the year group it would suit, together with any particular elements of English which that text promotes.

**Maths:** News and updates, A review of the work of the HUB, Adapting the Kent planning for mastery, We will be introducing a sample plan that schools can trial which takes the Kent planning and adapts it to reflect the needs of Mastery, What are the key elements in the Singapore approach that schools can adopt for the coming year, Year 5 moderation - all schools are asked to bring samples of work from year 5 to compare and moderate, All participants will be given a staff meeting to run of the using the Bar Model in their schools.

**AEN:** Best endeavours in the SEND Code of Practice, SEN decision making, SEND reporting, The DfE's fifth priority

## **Conference Reminders**

### **Teaching for Mastery Using Big Ideas in Mathematics**

Tuesday 21<sup>st</sup> June

Ashford International Hotel

What are big ideas in mathematics and why are they important? As noted in the aims for the new UK National Curriculum: Mathematics is an interconnected subject pupils should make rich connections across mathematical ideas to develop fluency, mathematical reasoning and competence in solving increasingly sophisticated problems. In this keynote Mike Askew will look at how a focus on teaching for Big Ideas can help achieve these aims. Mike will then go onto to explore a definition of what constitutes a Big Idea in primary mathematics, what some of the main Big Ideas are, and how working with Big Ideas can help address with learner diversity and promoting inclusive classrooms.
