

## **Area: East Kent (Canterbury, Faversham, Thanet, Folkestone, Hythe, Dover, Deal and Sandwich)**

### **LCPA Self-Evaluation 2024-2025**

#### **Key impact** made in the academic year

- Networks – the PfA co-ordinator has been attending local education network meetings, particularly in Thanet and Canterbury and has raised the profile of the work with them.
- The PfA co-ordinator has met with most of the headteachers across the area to assess their views and promote the needs of post-16 learners. There is now broad support from headteachers which now needs to be focussed on developing actions.
- A commitment to developing KentChoices to meet local needs. The local co-ordinator will join the KentChoices development group to make sure that local information is included in the site and the application process is maximised to meet local needs.
- The gaps that have been identified are:
  - provision below L2, particularly engagement provision for NEET young people.
  - Young people do not understand the full local offer. This will be addressed by collaborative open evening events.

#### **Identified issues** in the LCPA area, either from data or discussions, such as those at the sector-wide conversation

- Lack of L2 and below provision, particularly engagement provision for NEETs and vulnerable learners.
- A more structured approach to transition is needed.
- Employability/life skills and mental health support were identified in a series of youth consultation events.

#### **Sustainability plans** for the work of the LCPA once the funding period has ended

- There is a commitment from heads to keep funding the current model.

#### **Engagement** including issues and plans

- Overall, not a problem.
- There has been a focus on openness to break down mistrust.
- Some grammar schools not really engaged.
- Focus on solving the issues has overcome division.

#### **Headline success**, impact measures and monitoring

The local co-ordinator will monitor:

- NEETs – measured by KCC monthly reports.
- Increased provision – feedback from schools and KentChoices data.
- Improved life skills - measured by student voice.

#### **Alignment** with the Pathways for All Strategy

- Most of the work focuses on priority 2: To increase the number of learners studying and achieving at Level 2.

## LCPA Action Plan – March 2025
