## Overview

This handbook provides the information needed by Primary/Middle deemed Primary schools in England to complete the School Census Autumn Return.

The School Census Autumn Return is required to be completed by maintained Nursery schools, Primary schools, Middle schools, Secondary schools, All-Through schools, Special schools, Pupil Referral Units (PRUs), City Technology Colleges (CTCs) and Academies (including free schools) in England. Non-maintained Special schools are also required to submit the return.

Currently, there are three School Census returns each year (i.e. Spring, Summer and Autumn), which collect detailed information about school characteristics and pupil details. Different data is collected depending on which return is being prepared, and your school phase.

A list of items collected from Primary/Middle deemed Primary schools in England for the School Census Autumn Return is available in a later section of this handbook (please see *Preparing Data for the School Census Return* on page 6).

*NOTE: The contents of the graphics (dates, names, panel numbers, etc.) are examples only of what you might expect to see when using SIMS to produce the School Census Return.*

## Where to Find More Information

Online help can be accessed by pressing **F1** or clicking the applicable **Help** button in SIMS.

A wide range of documentation is available from the [SIMS Documentation Centre](#), including handbooks, quick reference sheets and tutorials. Click the **Documentation** button located on the top right-hand side of the SIMS **Home Page**, select the required category, then select the document you require.

## Additional Information

In addition to this handbook, a preparation guide that outlines how to prepare your data for the School Census, is also available from the [SIMS Statutory Returns Homepage](#).

You are strongly advised to check the following SIMS Newsfeeds because they provide a range of explanatory text, presentations, videos and spreadsheets that you may find useful. These newsfeeds are updated regularly to provide the latest news and answers to enquiries. In particular, the newsfeeds for School Census provide the latest iteration of our spreadsheet for DfE validation rules and SIMS solutions.

The [SIMS Newsfeed - Main Hub](#) provides links to all the statutory returns related newsfeeds.

## Steps to Producing the School Census Return

The process of producing the School Census can be separated into several steps, some of which might need to be repeated to eliminate validation errors and queries.

# 02 | Preparing for the School Census Autumn Return

Setting SIMS Permissions .....	5
What Version of SIMS is Required? .....	5
Preparing Data for the School Census Return .....	6

## Setting SIMS Permissions

The following permissions are applicable to users who deal with returns.

### Running the Return

To run the return, you must be a member of one of the following user groups in System Manager:

- Returns Manager
- Returns Operator.

### Editing and Preparing Data

Users who edit and prepare data must have permission to access additional areas of SIMS, e.g. pupil details, school details, etc. These users must be a member of the user groups applicable to the areas they are editing (please see *Where to find More Information about Permissions* on page 5).

### Permissions Required to Import a Revised Fileset

The Import Fileset functionality enables updates to the Validation Errors Summary and the Summary report (derived from files supplied by the Statutory Body), and detail reports (provided by SIMS) to be imported into SIMS between SIMS releases.

To use the Import Fileset functionality (via **Tools | Setups | Import Fileset**), you must be a member of one of the following user groups in System Manager:

- Returns Manager
- System Manager.

For more information about the Import Fileset functionality, please refer to the applicable preparation guide. To access the SIMS **Documentation Centre**. Click the **Documentation** button located on the top right-hand side of the SIMS **Home Page**.

### Where to find More Information about Permissions

Please contact your System Administrator/Manager if you are not sure whether you have the required permissions. For more information, please refer to the *Managing SIMS Users, Groups and Databases* handbook.

The [SIMS Permissions spreadsheet](#) describing the numerous permissions available in SIMS is available on the support portal.

## What Version of SIMS is Required?

To run the return, you must have the SIMS 2024 Summer Release (7.218) or later installed.

To check which version of SIMS is installed, open SIMS and then select **Help | About SIMS**.

The version should read 7.218 or later.

## Preparing Data for the School Census Return

**For more up-to-date checklist, including the latest information and enhancements, please refer to the online [Preparing Data for the School Census Return support article](#).**

## Creating a New School Census Return

**For more up-to-date guidance, including the latest information and enhancements, please refer to the online [Creating a new school Census Return support article](#).**

Before creating a new return, ensure that all pupil and school information is present and accurate in SIMS.

It is possible to create more than one return, enabling you to carry out dry runs so that you can check what data needs to be added or updated. Any unwanted returns can be deleted (providing they have not been authorised).

Data is collected for the following pupils:

- All pupils on-roll on census day.
- Any additional pupils not on-roll on census day who:
  - were on-roll for at least one session during the collection period.
  - had an exclusion.
  - had an alternative provision placement.
  - had funding and monitoring information.

### 03| Producing the School Census Autumn Return

1. Select **Routines | Statutory Returns | School Census** to load the School Census validation and reporting files.

**NOTE:** The first time that **Routines | Statutory Returns | School Census** is selected during each SIMS session, there is a delay while the School Census files are loaded.

When the files are loaded, the **Census Return** browser is displayed.

The **Census Communications** message box includes links to the newsfeed, errors and resolutions document, handbooks, DfE guidance and Support Unit website (if available). Any additional information to help with the completion of the return is also displayed, if applicable.

#### NOTES:

The **Fileset ID** is displayed in the browser header (for information only). The following graphic shows the position for the first release in the 2200 fileset series, where the fileset is obtained from the SIMS .net folder. As soon as any further release in the series is imported, the reference to the SIMS .net folder is no longer displayed. This is because the fileset data is then obtained from the document server. Instead the import date is displayed adjacent to the **Fileset ID**.

If a post-release consolidated database patch is applied, the patch ID and run date are also displayed in the browser.

By default, the **Term** field displays the appropriate term for the selected return, in this instance **Autumn 2024**.

2. Ensure that the **Census Folder** is selected correctly and that the required **Security message for Reports** is specified, as described in the following sections.

#### More Information:

*Deleting an Unauthorised Return* on page 56

*Specifying the Security Message for Reports* on page 12

## Configuring the Census Folder

Before creating a return, the folder in which the return file will be saved must be specified.

**IMPORTANT NOTES:** Due to the sensitive nature of some of the data stored in SIMS, careful consideration must be given when specifying the location of any folder into which you save sensitive data, e.g. census returns, imported and exported CTFs, etc.

You should be mindful of your school's responsibilities with respect to information security. Consider which users have access to the chosen folder, especially if the folder is shared on a server. Please refer to the government website for more information about securing your information (<https://www.gov.uk/service-manual/technology/securing-your-information>). If you are in any doubt, you should consult with your IT Security Officer before proceeding.

The General Data Protection Regulation (GDPR), which replaces the Data Protection Act 1998, is a directive for certain safeguards regarding the use of personal data. It is important that schools process all data (not just the data collected for the school census) in accordance with the full requirements of the GDPR.

Further information on the GDPR can be found on the Guide to the General Data protection Regulations (GDPR) page of the Information Commissioners Office (ICO) website (<https://ico.org.uk/for-organisations/guide-to-the-general-data-protection-regulation-gdpr>).

1. In the **Census Folder** field, enter the location of the folder where the return files are to be stored.

Alternatively, click the **Browse** button to display the **Browse For Folder** dialog.

 *Browse button*

2. Navigate to the location of the required folder and highlight it. If a suitable folder does not exist, click the **Make New Folder** button, then enter a suitable name for the new folder.

**IMPORTANT NOTE:** *If you are changing the location of the folder, ensure that authorised personnel only have access to the new folder, as the folder will contain sensitive data. For more information, please see the important note at the beginning of this section.*

3. Click the **OK** button.  
A message dialog requests confirmation that you want to continue.
4. Click the **OK** button to select or create the folder and return to the browser, where the new folder name is displayed.
5. Ensure that the **Security Message for Reports** is appropriate for your school.

## Specifying the Security Message for Reports

**For more up-to-date guidance, including the latest information and enhancements, please refer to the online [Configuring the Census Folder and Specifying the Security Message for Reports support article](#).**

The **Security message for Reports** field displays the text that will be included in the header of each report.

The default text (**This report contains sensitive information**) can be edited, if required. Clicking the **Default Message** button reverts the amended text to the original default text.

When the security message and census folder are specified, a new return can be created. Click the **New** button to display the **Census Return Details** page.

## Editing Census Details

**For more up-to-date guidance, including the latest information and enhancements, please refer to the online [Editing Census Details & Calculating All Details support article](#).**

The **Census Details** panel displays the following read-only information:

- Census Date
- Attendance data collected
- Exclusions data collected
- Alternative Provision Placements collected
- Funding and Monitoring collected

- FSM (Free School Meal) data collected (applicable to on-roll pupils only).

1 Census Details			
Census Date	06/10/2022		Calculate All Details
Description	School Census Autumn 2022		
Attendance collected from	18/04/2022	Attendance collected to	31/07/2022
Exclusions collected from	01/01/2022	Exclusions collected to	31/07/2022
AP Placements collected from	19/05/2022	AP Placements collected to	06/10/2022
FAM collected from	01/08/2022	FAM collected to	06/10/2022
*FSM collected from	20/05/2022	FSM collected to	06/10/2022
<small>*Only collected for on roll pupils not leavers</small>			

The default **Description (School Census Autumn 2024)** can be edited, if required, e.g. to identify a dry run.

**WARNING:** Each description used must be unique. An error message is displayed if SIMS identifies a duplicate description.

A unique description helps to identify the required return when viewed in the **Census Return** browser and can be particularly useful when creating dry runs, or copies of existing returns.

## Calculating All Details

Clicking the **Calculate All Details** button extracts the required information from SIMS and displays the results in the applicable panels of the **Census Return Details** page.

**IMPORTANT NOTE:** You must calculate all details at least once to populate the various panels for each return.

Do not use the **Calculate All Details** button more than once if you wish to keep any changes you have made. Clicking the **Calculate All Details** button overwrites any previously collected or edited data (in every panel where details are calculated automatically) with the data currently stored in SIMS.

Any details that are calculated automatically should be checked and edited, if required.

- Click the **Calculate All Details** button.

A message advises that any existing data currently shown on the **Census Return Details** page will be overwritten.

- Click the **Yes** button to calculate all details.

At this point, depending on the number of pupils in the school, there might be a short delay while details are calculated.

### 03| Producing the School Census Autumn Return

The applicable panels on the **Census Return Details** page are then populated with data.

3. The return can be saved at any point by clicking the **Save** button.

## Editing School Information

**For more up-to-date guidance, including the latest information and enhancements, please refer to the online [Editing School Information support article](#).**

The **School Information** panel displays details that have previously been recorded on the **School Details** page in SIMS (**Focus | School | School Details**). The information displayed might vary depending on your school and the details entered, e.g. Academy specific information.

The details displayed are read-only but can be amended, if necessary, via the **School Detail** button.

Select **Academies** from the applicable drop-down lists.
- The **Previous Name** and **Date Name Changed**.
- The **Previous Estab Number** and **Earliest DOA** (date of admission).  
This information is used by School Census. If the establishment number (DfE number) has changed for sponsor-led Academies, historical information is not collected, and the earliest date of admission is reported in the School Census.
- The **Previous URN Number** (used by other census returns) and **Date Number Changed**.  
This information is used by the School Workforce Census. For all types of Academies opened in the collection period, the date that the establishment's URN changed is used to determine when the academy was formed. Historical information is not collected from before the date the URN changed.

## Editing Early Years

Applicable to schools with Early Years children only

**For more up-to-date guidance, including the latest information and enhancements, please refer to the [Managing Early Years Data support article](#).**

Early Years data is collected from all schools that have early years pupils on-roll on census day. The following items are collected:

- Hours at Setting
- Funded Hours
- Disability Access Fund
- 30 Hour Code
- Extended Funded Hours.

*NOTE: Disability Access Fund, 30 Hour Code and Extended Funded Hours are not collected in the census for pupils aged two.*

## Funded Hours and Hours at Setting

Funded universal free entitlement hours are the total number of free childcare hours that a child receives. All three and four year old pupils are eligible for 15 hours funded childcare a week. Advice about the eligibility of two year old children for funded childcare can be found on the DfE website (<https://www.gov.uk/help-with-childcare-costs/free-childcare-2-year-olds>).

Hours at Setting include funded free entitlement hours (as described previously) plus any additional hours funded by other means.

The hours collected in this return are for the week in which the census day falls.

## Disability Access Fund

The Disability Access Fund (DAF) is payable as a lump sum once a year and awarded to three and four year old pupils who meet the following criteria:

- They are in receipt of child Disability Living Allowance (DLA) and
- They access their entitlement to free early learning and childcare, e.g. funded hours.

Disability Access Fund data is collected in this return for pupils who are in receipt of the fund on census day.

Additional information about the Disability Access Fund is available via the DfE website (<https://www.gov.uk/education/early-years-funding>).

## Extended Funded Hours and 30 Hour Code

**Extended Funded Hours** are the number of hours that a child can receive in addition to the initial 15 funded hours. Extended Funded Hours are applicable to three and four year old pupils only.

Extended Funded Hours can double the original 15 hours of free childcare to 30 hours a week, i.e. 15 funded free entitlement hours + 15 extended entitlement hours = 30 hours, provided that the following criteria are met:

- Both parents must be working (or the sole parent is working in a lone parent family) and live in England.
- Each parent earns, on average, a weekly minimum equivalent to 16 hours at National Minimum Wage or National Living Wage.
- Each parent must have an annual income of less than the specified amount.

Parents who meet the extended funded hours criteria must obtain a unique code from the Tax Office (HM Revenue & Customs), then provide it to the school, together with other details, to confirm their eligibility for extended childcare hours.

The 11-digit **30 Hour Code** and the number of extended funded hours are collected in this return for the week in which the census day falls.

Extended Funded Hours information provided by the DfE can be found on their website (<https://www.gov.uk/government/publications/30-hours-free-childcare-1a-and-early-years-provider-guide>).

## Recording Early Years

The required data can be recorded:

- via the **Edit** button in the **Early Years** panel
- via **Tools | Statutory Returns Tools | Update Early Years - Update Early Years** page. The data in the **Early Years** panel must be refreshed by clicking the **Recalculate** button after using the Update Early Years routine.

If data has been recorded previously, the values are displayed in the read-only **Early Years** panel. Only cohorts applicable to your school are displayed.

Primary phase schools that have defined Early Years Attendance Patterns (via **Focus | Pupil | Pupil Details**) for pupils who are receiving free nursery care can update Hours at Setting automatically.

- a. Click the **Update Hours** button (applicable to Primary phase schools only).

The number of Hours at Setting that the listed pupils are expected to attend during the census week (based on the early years provision times recorded as part of their attendance pattern) are displayed in the **Pupils** panel.

- b. Edit the values, if required.

*NOTE: If your school does not use the Define Early Years Attendance Patterns functionality, the data can be entered in the grid manually.*

3. To add or edit the number of **Hours at Setting, Funded Hours** and **Extended Funded Hours** for an individual pupil, select the required criteria in the **Pupils View** panel.

In the **Pupils** panel, highlight the required pupil, click the applicable cell and then enter the required number of hours.

**IMPORTANT NOTES:** Values for **Funded Hours, Hours at Setting** and **Extended Funded Hours** should be entered using two decimal places. For example, 1 hour 15 minutes must be entered as 1.25. Zero (0) is an accepted value.

If the value entered is within the range accepted by SIMS but is higher than what the DfE expects, a validation error is displayed when the return is created and validated. An explanation as to why the value is higher should be recorded on the COLLECT Portal.

4. If most of the pupils are receiving the same number of hours, the following method can be used to populate the column quickly:
  - a. In the **Pupils View** panel, select the required year group from the Year Taught In (**YTI**) drop-down list. The selected pupils only are displayed in the **Pupils** panel.
  - b. Right-click in the **Pupils** panel, then select **Select All** from the drop-down list.

## Editing Class Types

For more up-to-date guidance, including the latest information and enhancements, please refer to the [Editing Class Types support article](#).

The type of class (either **Nursery** or **Other**) that each pupil belongs to on census day must be specified. Pupils in your Nursery class should be specified as **Nursery**, with all other pupils specified as **Other**.

If the class types have been recorded previously via **Tools | Statutory Return Tools | Update Class Type**, the data is displayed in the **Class Type** panel.

## Editing Pupils with Top-Up Funding

**For more up-to-date guidance, including the latest information and enhancements, please refer to the [Editing Pupil/Students with Top-Up Funding support article](#).**

Top-up funding is supplied to schools, in most cases by the Local Authority, to meet the additional costs of support for high needs pupils.

The **Top-up Funding** panel enables you to record the on-roll pupils for whom your school is receiving top-up funding on census day.

If the pupils with top-up funding have been recorded previously via **Tools | Statutory Return Tools | Update Top-Up Funding**, the data is displayed in the **Top-up Funding** panel.

## Updating Funding and Monitoring

Not applicable to Nursery schools

**For more up-to-date guidance, including the latest information and enhancements, please refer to the [Updating Funding and Monitoring support article](#).**

The pupil level Update Funding and Monitoring functionality is provided to enable schools to record aspects of the Education Recovery Package.

From the start of the academic year 2023/2024 (the 1 August is the earliest possible date), schools should record tutoring that was delivered via any of the following National Tutoring Programme (NTP) delivery routes:

- tuition partners
- academic mentors
- school-led tutoring.

In the previous academic year school-led tutoring only was collected.

More information about the National Tutoring Programme is available on the GOV.UK website (<https://www.gov.uk/government/publications/national-tutoring-programme-ntp>).

The information can be recorded via the **Tools** menu and maintained at any time during the academic year.

The information required is based on individual pupils:

Pupil in receipt of tutoring programme: Applicable to all schools (except Nursery schools), with the appropriate year groups or age groups, i.e. pre-16. For pupils in National Curriculum Year Actual 1 to 11, or aged 5 to 15 in National Curriculum Year Actual 'X' for special schools. (Funding and Monitoring code = **01**.)

Detailed guidance about the expectations and conditions attached to tutoring funding is available on the GOV.UK website.

### What Data should be entered?

*NOTE: Before entering tutoring hours, ensure that **Tutoring** is selected for applicable pupils only. When a tick is displayed, values can be entered in the corresponding 'cumulative hour' cells.*

The following table describes the values that should be entered in each 'hours' column.

**03 | Producing the School Census Autumn Return**

	Cumulative Hrs at Aut Census	Cumulative Hrs at Spr Census	Cumulative Hrs at Sum Census	Cumulative Hrs at 31 Aug
Description of expected values	All hours of tutoring from the start of the Autumn term to the Autumn census date.	All hours of tutoring from August to the Spring census date.  The number of hours entered must be greater than or equal to the Autumn hours.	All hours of tutoring from August to the Summer census date.  The number of hours entered must be greater than or equal to the Spring hours.	All hours of tutoring from August to the Summer census date plus any additional hours that occurred after the Summer census date.  The number of hours entered must be greater than or equal to the Summer hours.
Scenario	Five hours tuition received from August to October.	Three hours received after October to January.	Two hours received after January to May.	One additional hour after May to July.  Not applicable to the census but required for ESFA reporting.
Example values for each column	5	8	10	11

A red 'cumulative hours' cell indicates that the value entered has failed the validation. A message providing more details is displayed in the status bar at the bottom of the **Update Funding and Monitoring** page.

**Editing Funding and Monitoring**

If funding and monitoring details have been recorded previously via **Tools | Statutory Return Tools | Update Funding and Monitoring**, the information is displayed in the **Funding and Monitoring** panel.

Read-only pupil information is displayed in the columns on the left-hand side of the **Pupil** panel. This information is shown as at the system date.  
Cells with a white background are editable.
4. Right-click anywhere in the **Tutoring** column, then select the required option from the pop-up menu.
  - a. If most or all of the pupils have been receiving tutoring, select the **Check All** option.
  - b. Any pupils who have not been receiving tutoring can then be deselected by clicking the **Tuition** cell adjacent to their name.
5. When a tick is entered in a **Tutoring** cell, the corresponding 'cumulative hour' cells are then editable. The number of tutoring hours (to the nearest 0.5) that the pupil has received as at the applicable census date should be entered.

After entering a value in the **Cumulative Hrs at Aut Census** column it is possible to auto-populate the 'hours' cells to the right. The associated spring cell turns red.

When you click in (or tab to) the **Cumulative Hrs at Spr Census** cell, the autumn value is copied to all the 'hours' cells to the right. This value is the minimum cumulative hours possible.

These values can be edited when you know the hours that have been delivered for spring.

**IMPORTANT NOTE:** To deselect tutoring, all of the existing hours must be removed for the selected pupil(s). Clicking the **Undo** button reverts the changes, if required.

The cumulative Autumn hours only are reported in the Autumn census.

6. In the **Cumulative Hrs at 31 Aug** column, enter the total number of tutoring hours for the whole academic year up until 31 August, which includes the summer holidays. The value entered must be greater than or equal to that entered in the **Cumulative Hrs at Sum Census** column.

A red cell indicates that the value is less than that entered in the **Cumulative Hrs at Sum Census** column and must be amended.

*NOTE: The values entered in the **Cumulative Hrs at 31 Aug** column are not reported in the census. This functionality has been provided to enable schools to record data required by the Education and Skills Funding Agency (ESFA) (<https://www.gov.uk/government/organisations/education-and-skills-funding-agency>).*

7. Enter **Notes**, if required. This information is for your school's use and is not collected in the census.
8. Click the **Save** button and then click the **OK** button to return to the **Census Return Details** page.

*NOTE: All validation errors (red cells) must be resolved before saving the data.*

DfE guidance about Learner funding and monitoring (FAM) is available on the GOV.UK website (<https://www.gov.uk/guidance/complete-the-school-census>).

## Managing School Dinners Taken on Census Day

Applicable to schools with pupils in Reception, Year 1 and Year 2

**For more up-to-date guidance, including the latest information and enhancements, please refer to the [Managing School Dinners Taken on Census Day support article](#).**

All pupils in Reception, Year 1 and Year 2 in English state-funded schools are offered a Universal Infant School Meal, i.e. a hot meal at lunchtime. This applies to Academies, Free Schools and Pupil Referral Units, as well as to schools maintained by the local authority. The School Census Autumn Return collects information about pupils who receive a Universal Infant School Meal (school dinner) on census day.

The **School Dinner Taken** panel displays all pupils in Reception, Year 1 and Year 2 who are on-roll on census day. The options available in the panel enable you to record pupils who have taken a Universal Infant School Meals on census day, so that accurate data can be included in the census.

*NOTES: The **Reference Date** is provided so that your school can report school dinners taken on an alternative date to census day, if required.*

*The pupils listed in the **School Dinner Taken** panel are those who are on-roll on census day. Whereas the data calculated via the **Calculate From Attendance** and the **Calculate From Dinner Money** buttons is based on the reference date.*

If your school uses SIMS Dinner Money or SIMS Attendance, the number of dinners taken on census day can be calculated using the data recorded when using these modules. If either or both modules are not in use, the applicable **Calculate From** button(s), as displayed in the following graphic, are not displayed but the information can be recorded manually.

<b>1</b>	By default, the <b>Reference Date</b> is set to census day. If, due to exceptional circumstance, e.g. flooding, pupils were unable to take a school dinner on census day, the reference date can be changed to a date that reflects the situation. However, the reference date must be within the Autumn term date range.
<b>2</b>	Click the required column header to sort the data.
<b>3</b>	The <b>Calculate From Attendance</b> button is displayed only if SIMS Attendance is in use.
<b>4</b>	The <b>Calculate from Dinner Money</b> button is displayed only if SIMS Dinner Money is in use.
<b>5</b>	When the <b>Reset</b> button is clicked all existing ticks are removed from the <b>School Dinner Taken</b> column enabling you to start the process again.
<b>6</b>	The <b>Total Taken</b> and <b>Total Not Taken</b> provide an indication of whether the number of school dinners taken is correct or whether edits are required.

After the return has been created and validated, the School Dinner Taken detail report can be run to assist with the checking of results.

## Using Dinner Money to Calculate School Dinners Taken on Census Day

If SIMS Dinner Money is in use, the Dinner Money data recorded for census day can be used to calculate the number of school dinners taken on census day.

### 03| Producing the School Census Autumn Return

Many users of SIMS Dinner Money also use SIMS Attendance. If this is the case the **Calculate From Attendance** button is also displayed.

However, it is recommended that the Calculate From Dinner Money routine is used in the first instance. This is because the Calculate From Attendance routine looks at all pupils with a present or late attendance mark on census day morning. These pupils could be taking any sort of meal on census day, e.g. going home for lunch, pack lunch brought from home, as well as meals provided by the school. The School Census return is only interested in school meals provided by the school.

SIMS Dinner Money takes into account these different meal types and populates the **School Dinner Taken** column with ticks where meals provided by the school only have been taken.

Surname	Forename	YTI	Reg Group	Enrol Status	School Dinner Taken
Abbott	Jessica	2	2JB	Single Registration	
Abhra	Shaquib	2	2JB	Single Registration	
Abrams	Paul	1	ELM	Single Registration	
Ackton	Charlotte	2	2GH	Single Registration	✓

Armitage	Elise	R	OAK	Single Registration	✓
Atkins	Austin	R	PINE	Single Registration	✓
Atkins	Portia	1	ASH	Single Registration	
Barnes	Isaac	1	OAK	Single Registration	✓

1. Click the **Calculate From Dinner Money** button.

**WARNING:** Clicking the **Calculate From Dinner Money** button overwrites all existing data in the **School Dinner Taken** panel.

If SIMS detects missing information, the following message is displayed:

**Dinner Money information is incomplete. Please ensure that meals are recorded in Dinner Money.**

2. Click the **Cancel** button to return to SIMS where the missing information can be entered or the **OK** button to continue.

A tick is entered against each pupil who is receiving any type of meal provided by the school on census day. These meals have a meal type category of **School Provided**, with a description such as hot school meal or school sandwich.

3. Edit the information by clicking the required row, in the **School Dinner Taken** column, to toggle between a tick and blank (no meal taken), as required.

## Using Attendance to Calculate School Dinners Taken on Census Day

The School Census Return only requires information about school meals provided by the school on census day. However, if SIMS Attendance is in use, the attendance data recorded for census day morning can be used to calculate all pupils who are present and are likely to be taking a school dinner.

The information calculated from attendance can be edited to so that school meals provided by the school only are collected in the return.

1. Click the **Calculate From Attendance** button.

**WARNING:** Clicking the **Calculate From Attendance** button overwrites existing data in the **School Dinner Taken** panel.

If missing marks exist, a message is displayed:

**Please ensure that registers have been taken. Missing marks have been interpreted as absent and no dinner taken.**

2. Click the **Cancel** button to return to SIMS where missing marks can be entered or the **OK** button to continue.

A tick is entered against each pupil who is marked as present on census day morning (i.e. AM session). It is possible that some of these pupils are not taking meals provided by the school, e.g. they go home for dinner or bring a packed lunch from home. Meals provided by the school only are required for the return.

Use the **Group By** functionality to group pupils by **Year Taught In, Reg Group** or **Enrolment Status**, enabling school dinners taken information to be updated from class lists, etc.

## Entering Attendance Information

For more up-to-date guidance, including the latest information and enhancements, please refer to the [Entering Attendance Information support article](#).

Summer term attendance data (including attendance codes and the number of sessions missed) should be provided for non-boarder pupils aged four to 15 who were on-roll for at least one session during each Summer half term, i.e. from 18/04/2023 to 29/05/2023 and 30/05/2023 to 31/07/2023.

**IMPORTANT NOTE:** Clicking the **Calculate All Details** button overwrites any edited data in every panel with the original data stored in SIMS. Do not use this button if you wish to keep any changes you have made.

After the **Calculate All Details** button is clicked, the information displayed in the **Attendance** panel is dependent on which of the following is applicable to your school:

- Attendance/Lesson Monitor is in use, the attendance codes being used are DfE compliant and there are either missing marks or no missing marks.
- Attendance/Lesson Monitor is in use and the attendance codes being used are DfE non-compliant.
- Attendance/Lesson Monitor is not in use.

## SIMS Attendance Users

If SIMS Attendance is in use, data is collected on all categories of school attendance. Ensure that all missing marks and unexplained absences for the previous term have been dealt with before commencing the return.

*TIP: After the Create and Validate process is run, the Attendance detail report can be used to assist with the checking of attendance data. Select **Attendance Report** from the **Detail Report** drop-down list.*

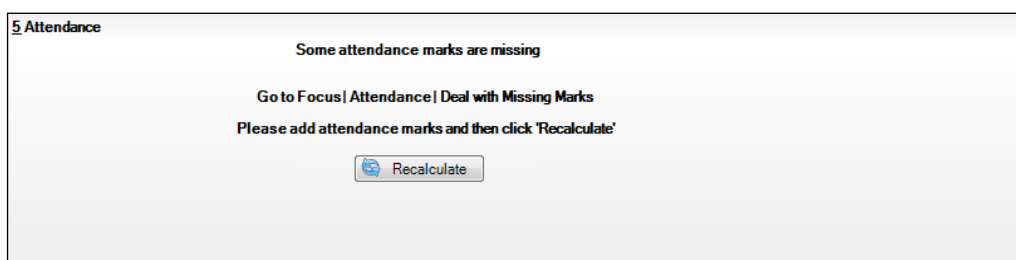

## Are your Attendance Codes DfE Compliant?

If Attendance is in use and your school is using DfE compliant attendance codes, attendance data is entered directly into the return, providing that there are no missing marks.

If all attendance marks have been entered in Attendance, the following message is displayed in the **Attendance** panel, informing you that your attendance codes are DfE compliant but will be rechecked at the Create and Validate stage.

However, if any missing attendance marks are detected, the following message is displayed in the **Attendance** panel, requesting that you add the missing attendance marks.

1. Use the Deal with Missing Marks routine (**Focus | Attendance | Deal with Missing Marks**) to locate the missing marks and enter appropriate attendance codes.
2. Return to the **Census Return Details** page and click the **Check missing marks** button in the **Attendance** panel to ensure that all missing marks have been dealt with.

*NOTE: The Create and Validate process can still be run even if some attendance marks are missing. You will be asked if you wish to continue to create the return or cancel the Create and Validate process.*

### More Information:

Producing Detail Reports on page 42

## Are your Attendance Codes DfE Non-Compliant?

If Attendance is in use but one or more invalid attendance codes have been detected, a message is displayed in the **Attendance** panel to inform you that your attendance codes are not DfE compliant.

1. Non-compliant codes must be dealt with. Please contact your Local Support Unit for assistance.
2. Click the **Check attendance codes** button to check that DfE attendance codes are now in use.  
If the attendance codes are now DfE compliant, a message informs you that the codes will be rechecked at the **Create & Validate** stage.
3. Click the **OK** button to continue.

## SIMS Attendance Not in Use

If Attendance is not in use, the following data must be entered manually for the two specified collection periods, i.e. from 18/04/2023 to 29/05/2023 and 30/05/2023 to 31/07/2023:

## Creating and Validating the School Census Return

**For more up-to-date guidance, including the latest information and enhancements, please refer to the [Creating and Validating the school Statutory Return support article](#).**

A return must be created, validated and authorised before it can be sent to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school).

Validating the return creates an unauthorised return file, which is then run against a set of DfE rules. When the validation is complete, a list of errors and queries is displayed.

An error is caused by either missing or inaccurate data, whilst a query highlights data that is unusual or not as expected, e.g. there are no pupils showing as having special educational needs.

1. Select **Routines | Statutory Returns | School Census** to display the **Census Return** browser.
2. Click the **Search** button to display a list of returns.
3. Double-click the required return to display the **Census Return Details** page.
4. Click the **Create & Validate** button to start the process. There may be a short delay, depending on the number of pupils at your school.

## 04| Completing the School Census Autumn Return

A progress bar is displayed, indicating that the Create and Validate process is being performed.

During the Create and Validate process, SIMS examines the data for any anomalies applicable to your school phase, e.g. no top-up funding information, missing attendance marks, permanent exclusions without a final governor review result, etc.

If an anomaly is found, a message is displayed, which provides the opportunity to continue to create and validate or cancel the process, so that details can be checked. Detail reports are available to assist you when checking details.

When the validation process is complete, the **Validation Errors Summary** panel is displayed at the bottom of the screen.

*A hyperlink is also indicated by a hash symbol (#) preceding the **Solution** text.*

*Click the required hyperlink to display the specific area in SIMS where the record(s) can be checked/corrected.*

To assist in the viewing of errors and queries:

The order of the items in the list can be changed by clicking the appropriate column heading.

The width of the columns can be changed by dragging the dividing line between the column headings until the required size is achieved.

- View a summary of validation failures by clicking the **Report** button (located above the **Validation Errors Summary** panel, on the left-hand side). The report is displayed in your web browser, from where it can be printed or transferred to another application, if required.

The report is saved automatically in the **Census Folder** (specified previously via the census browser). The original report, which was generated when the **Create & Validate** button was clicked is also stored in this folder.

- Your generated report file name: Validation Errors Summary.HTML
- Original report file name:  
<LACode><SchoolNumber>\_<SurveyType>\_<LACode><LL><Year>  
\_<SerialNumber>\_ValidationErrorsSummary.HTML

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

Resolve as many errors and check as many queries as possible then revalidate the return details. Continue to resolve failures and revalidate the return as many times as necessary.

*NOTE: All errors must be resolved, and all queries must be investigated.*

If at any point you want to hide the list of error and queries, click the **Close** button located at the top right-hand side of the **Validation Errors Summary** panel. The list is displayed again when the Create and Validate process is run.

Many of the errors generated can be fixed quickly using bulk update functionality (via **Routines | Pupil | Bulk Update**). For more information, please refer to the *Managing Pupil/Students* handbook.

## Producing Detail Reports

**For more up-to-date guidance, including the latest information and enhancements, please refer to the [Producing Detail Reports support article](#).**

## Printing a Report from your Web Browser

For more up-to-date guidance, including the latest information and enhancements, please refer to the [Printing a Report from your Web Browser support article](#).

**IMPORTANT NOTE:** Any printed reports containing information that could identify a person (e.g. their name, address, UPN, etc.) should be used for validation purposes only and should not be retained. The Security Message (displayed at the top of each report) can be customised to include, for example, instructions for the destruction of the printed reports.

1. With the generated report displayed in your web browser, select the **Print** option (**Ctrl+P**) to display the **Print** dialog.
2. Ensure that the print settings are correct then click the **Print** button.
3. Click the **Close** button on the top right-hand corner of the web page to close the report and return to the census page.

## Deleting Temporary Web Browser Files

For more up-to-date guidance, including the latest information and enhancements, please refer to the [Deleting Temporary Web Browser Files support article](#).

It is recommended that, after viewing statutory returns reports, you delete any temporary web browser files to ensure that any cached data (i.e. data stored on your machine, which enables high-speed access to previously viewed data) is removed.

This prevents the information, e.g. copies of web pages that are stored in the local cache for faster viewing, remaining on the hard disk of the device in the temporary directory, where it is not secure.

When this process is performed, all temporary files (including any Statutory Returns reports files) that the browser has cached are deleted.

To clear the cache, open your web browser, then clear the browsing data history. For more information, please refer to the documentation applicable to the web browser you are using.

## Producing the Summary Report

**For more up-to-date guidance, including the latest information and enhancements, please refer to the [Producing the Summary Report support article](#).**

The Summary report enables the school staff, who are involved in the return's preparation, to assess the accuracy and completeness of the return data. It should then be passed to the Head Teacher for their review.

*NOTE: When the return is authorised, the Summary report is automatically generated and displayed in your web browser.*

## Generating the Summary Report

Click the **Summary** button located at the top of the **Census Return Details** page. The report is automatically displayed in your web browser but can be transferred to a spreadsheet, if required.

The report is saved automatically in the **Census Folder**, which was specified in the **Census Return** browser, e.g. S:\SCHOOL CENSUS. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

The report is saved with a filename that is made up of the following data fields separated by underscores ('\_'):

```
<LACode><SchoolNumber>_<SurveyType>_<LACode><LL><Year>_<SerialNumber>_<name of the report>_Report.html
```

For example: 8232999\_SC3\_823LL22\_001\_Summary\_Report.html.

It is important that the Head Teacher checks all the information on the Summary report before the return is authorised. Your LA/DfE might request that a copy of the Summary report (which is automatically generated when the return is authorised) is signed by the Head Teacher and sent to the LA/DfE when the return has been authorised.

## Editing an Unauthorised Return

**For more up-to-date guidance, including the latest information and enhancements, please refer to the [Editing an Unauthorised Return support article](#).**

The return details, e.g. **Description**, **School Information**, etc. can be edited via the **Census Return Details** page at any time prior to authorisation.

**IMPORTANT NOTE:** An authorised return cannot be edited. If changes are required to an authorised return, use the **Copy** facility to produce a duplicate return (with a unique description) in which the changes can be made.

1. Select **Routines | Statutory Returns | School Census** to display the browser.
2. Ensure that the **Census Folder** and the **Security message for Reports** are correct, then click the **Search** button to display any previously created returns. Unauthorised return files can be recognised by their .UNA suffix.
3. Double-click the required return. Alternatively, highlight the required return, then click the **Open** button to display the **Census Return Details** page.
4. Edit the return details as required.
5. Click the **Create & Validate** button to display the **Validation Errors Summary** panel.
6. Run the detail reports and Summary report and then use the information they provide to assist with resolving errors and queries.
7. Repeat the editing and Create & Validate process again, if necessary.
8. Click the **Save** button.

## Authorising the Return

**For more up-to-date guidance, including the latest information and enhancements, please refer to the [Authorising the Return support article](#).**

A return must be authorised before it can be submitted to your Local Authority or uploaded to the DfE COLLECT data collection website (as applicable to your school). If you authorise a return and subsequently need to make amendments, you must either make a copy of the return and work on the copy or create a new return.

Before authorising the return, you should ensure that all the information displayed on the **Census Return Details** page is correct and does not require further editing. This is because it is not possible to edit details after the return is authorised. The content of the Summary report can be useful when reviewing the information.

#### 04| Completing the School Census Autumn Return

1. Click the **Authorise** button.

If missing marks exist, the following message is displayed.

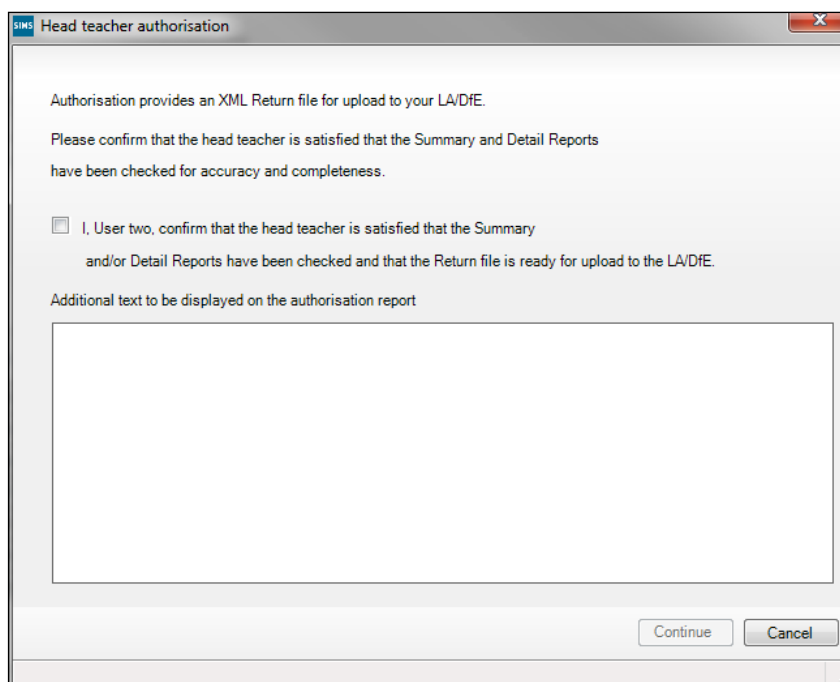

2. Click the **Yes** button to continue with the authorisation process or the **No** button if you want to return to SIMS where the missing marks can be entered.

If you choose to continue, a message reminds you that the return cannot be edited once it is authorised.

3. Click the **Yes** button to continue or the **No** button to return to SIMS where edits can be made to the data before authorising.

If you choose to continue, the **Head teacher authorisation** dialog is displayed.

4. Enter any additional text to be displayed on the authorisation report, if required. This may be requested by your LA, e.g. to explain the reason for any validation failures.
5. Select the confirmation check box to confirm that the Head Teacher is satisfied that the Summary and/or detail reports have been checked and that the return file is ready for upload to your LA/DfE.

When the confirmation check box is selected, the **Continue** button is activated enabling you to complete the authorisation process.

6. Click the **Continue** button to authorise the return and prompt the following actions:
  - The return file extension changes automatically from UNA (unauthorised) to XML (authorised).
  - The Summary report, Authorisation report and Validation Errors Summary report are generated automatically and displayed in your web browser, from where they can be printed, if required.

All reports (including detail reports) and the XML file are saved in the **Census Folder**, which was specified previously in the **Census Return for Autumn 2024 Term** browser.

These reports can be viewed using the Retrieve Authorised Census Return Files routine (via **Tools | Statutory Return Tools**). This routine also provides the opportunity to download the files to a different folder.

**IMPORTANT NOTE:** *The retrieved files contain sensitive information. Ensure that authorised personnel only have access to the download folder.*

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

After the return is authorised, reports based on cohorts can be created (via **Reports | Design Reports**), so that items collected in the return can be tracked. Provided that **Student** has been selected as the data area, the Statutory Returns sub-report is available for selection when specifying the fields to be included in the report (the last node).

## Submitting the Return

**For more up-to-date guidance, including the latest information and enhancements, please refer to the [Submitting the Return support article](#).**

When the return has been completed and the Summary report has been signed by the Head Teacher (if requested to do so by your LA), the .XML file can be uploaded to the DfE COLLECT data collection website or sent to your LA, depending on the instructions you have been given.

Guidance about how Local Authorities, schools and academies should submit the census data is available on the GOV.UK website (<https://www.gov.uk/guidance/school-census>).

The authorised return file can be located in the folder previously specified in the **Census Return** browser. For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

**IMPORTANT NOTE:** An authorised file cannot be edited. If you need to make changes to an authorised file, you must make a copy of the original file, rename it and work on the copy.

## Retrieving Authorised Census Return Files

For more up-to-date guidance, including the latest information and enhancements, please refer to the [Retrieving Authorised Census Return Files support article](#).

Authorised returns are stored in your Document Management Server (DMS). The Returns Manager can download and run the reports associated with previous authorised returns enabling the data for the current return to be compared with that submitted previously.

1. Select **Tools | Statutory Returns Tools | Retrieve Authorised Census Return Files** to display the **Retrieve Authorised Census Return Files for <census name>** page.
2. Select the type of census required from the **Return Type** drop-down list to display a list of previous returns that match the selected criteria.
3. By default, the **Download to** field displays the folder specified previously in the **Census Return** browser. To specify a different folder:
  - a. Click the **Select a folder** button (...) to display the **Browse For Folder** dialog. Navigate to the location of the required folder then highlight it. If a suitable folder does not exist, click the **Make New Folder** button then enter a suitable folder name.

**IMPORTANT NOTE:** Ensure that authorised personnel only have access to the download folder because the retrieved files contain sensitive information.

For guidance on navigating to files on your local workstation when you are working in a Hosted environment, please contact your System Manager or Local Support Unit.

- b. Click the **OK** button to select or create the folder and then return to the **Retrieve Authorised Return Files for <census name>** page, where the chosen folder name is displayed in the **Download to** field.
4. Highlight the return you wish to retrieve then click the **Retrieve Files** button.

The authorised return file (i.e. the XML file) and all reports associated with the selected return are downloaded from your DMS to the specified folder. The folder and its contents are then displayed automatically, enabling you to open the required files in your web browser.

- The contents of the specified folder can be viewed again by clicking the **Folder** button adjacent to the **Download to** field.

If you want to create reports based on cohorts, so that items collected in the return can be tracked, a sub-report is available (via **Reports | Design Reports**).

The **Statutory Returns** sub-report is available for selection only if **Student** has been selected as the Data Area.

When you **Select fields to be included in the report**, the **Statutory Returns** sub-report is located at the bottom of the list (the last node).

Three options are available for selection under this sub-report: **Authorised Date, File Name** and **Return Description**.

## Copying a Return

**For more up-to-date guidance, including the latest information and enhancements, please refer to the [Copying a Return support article](#).**

An unauthorised return can be copied and saved as a new return. This enables a 'snapshot' of a return to be taken at any time providing a backup of any manual changes that have been made to the return, for example before recalculating details.

This functionality can also be used to make a copy of an authorised return if the LA or DfE requires it to be resubmitted. The necessary corrections can then be made to the data. The copied return must be saved, created, validated and authorised before resubmitting.

*NOTE: Ensure that the return you wish to replicate is not open at the time of copying.*

- Select **Routines | Statutory Returns | School Census** to display the census browser.
- Click the **Search** button to ensure that the list of returns is displayed.
- Highlight the file you want to copy then click the **Copy** button.

A message prompts for confirmation that you wish to make a copy of the selected return.

**IMPORTANT NOTE:** Any values for *Early Years, Top-up Funding, Post Looked After Arrangements, Funding and Monitoring, and Attendance (where applicable)*, will not be copied but will be populated from the current values held in the database.

*The Create & Validate routine must be run to generate a new census file.*

- Click the **Yes** button to make the copy, which is then displayed in the browser as:  
Copy of <description of selected file>.
- To rename the copied return, highlight it, then click the **Open** button to display the **Census Return Details** page.

6. In the **Census Details** panel, edit the **Description** then click the **Save** button.

**IMPORTANT NOTE:** A unique description must be used for each return. If duplicate returns are detected, an error message is displayed.

## Deleting an Unauthorised Return

For more up-to-date guidance, including the latest information and enhancements, please refer to the [Deleting an Unauthorised Return support article](#).

During the return process, several copies of the return might be created, e.g. to track progress. When the return has been authorised successfully, it is advisable to delete any versions of the return that are no longer required. This keeps the number of files in the storage folder and listed in the browser to a minimum, therefore removing confusion and lessening the risk of selecting the incorrect return.

The Delete routine can be used to remove unwanted returns at any time prior to the relevant return being authorised.

**IMPORTANT NOTES:** When a return file is deleted, any associated files, e.g. Validation Errors Summary, detail reports, etc. that have been produced are also deleted.

Any return files that have already been authorised cannot be deleted.

1. Select **Routines | Statutory Returns | School Census** to display the browser.
2. Click the **Search** button to ensure that the list of return files is displayed.
3. Highlight the return file to be deleted, then click the **Delete** button. A message prompts for confirmation that the selected return should be deleted.
4. Click the **Yes** button to permanently delete the selected return file and all associated report files.

The selected return file and associated reports are removed from the browser and the storage folder.
